Requirement alert type

What it does:

Allows you to create different types of Requirement Alerts. This can be used for financial holds, for electronic monitoring equipment, or for any other type of requirement.

Adding the table entry

Menu | Tables | Generic Validation Tables |

- **Code** – Choose a code. It can be 1-4 characters.
- **Short description** – The short description can be up to 15 characters
- **Long description** – The long description is what the users see, it can be up to 50 characters long.
- **Require Type** – If specified this will only be displayed for requirements of the type (or type/code) specified.

Click the **Update** button to save your work.

Requirement Alerts can be viewed at Menu | Miscellaneous | Requirements | Requirement Alerts.
