

Automatically place signatures on documents

What it does:

Automatically puts a Quest User's signature on a document. This is perfect for a Certificate of Service, Summons, etc.

Adding the table entry

Menu | Tables | Generic Validation Tables | Defaults

Code: FF AUTOSIGN
Short description:*
Long description:*
Active:* Yes No

Notes:

Entries should identify the variable name associated with the ff autosign functions and the corresponding userid who's signature or name should be inserted.

Note: if the userid doesn't have a signature, the associated name will be inserted instead.
