Audit cases for logical errors

Report Description:

This report will look at the cases and determine if there are any errors. You know when you go to close a case and you get an error message that users ignore? This will help you find all those cases with errors, so you can fix them. Things like "case open but no case names are active" and "case closed but requirements are still open."

Running the Report:

Just click the **Submit** button to run this report. This could be set up as a batch report to run monthly or quarterly so you can stay on top of keeping the system clean.

Audit Cases For Logical Errors
Enter report criteria and press "Submit"

This report does not require any additional input. Press "Submit" to submit the report for execution.

The Report:

Audit cases for logical errors
▬▬ County

Case	Names	Errors
02D07-0505-RS-000096	Fen▬▬on (31▬ Fen▬▬rge (31▬ Fen▬▬y (316959/1) Fen▬▬n (316956/1)	Case open but no case names are active Status last updated by Miller, Janet E.
02D07-0510-JD-001770	Sut▬▬e (301404/4)	Case closed but requirements are still open Status last updated by Weaver, Jeremy C.
02D07-0608-RS-000124	A▬▬ra (308542/3) H▬▬, Denny (3▬ H▬▬, Prascilla (3▬ H▬▬, Taylorrose (326469/1)	Case open but no case names are active Status last updated by Thompson, Karlene S.
02D07-9902-JC-000020	G▬▬ni (366051/1) Jo▬▬l (202689/6) V▬▬evin (3▬ V▬▬atianna (202691/2)	Case open but no case names are active Status last updated by Thompson, Karlene S.

Where the data comes from:

It checks every case on the system and performs the same checks we do online when you go to the case detail screen.

Current case status is missing from the table of valid case statuses!
Case closed but case names are still active
Case open but no case names are active
Case closed but case assignments are still active
Case closed but deadlines are still unfinished
Case closed but warrants are still active
Case closed but filed statutes are still open
Case closed but requirements are still open
Case closed but events are still open
Any other special validations that have been added via rules
