

Authorized users

Report Description:

This report will produce a list of all people with access to Quest. You can pull the list to show everyone or you can run it for a specific agency or security group. It shows the user name, ID, Agency, Security Group, whether they still have the default password, and the date of their last sign on.

Running the Report:

You can run this report for a specific agency or a specific Security Group, or you can leave this all empty and get all agencies and all security groups.

Authorized Users Enter report criteria and press "Submit"

Agency (leave blank for all):

Security Group (leave blank for all):

The Report:
