

Default case status when adding a case

What it does:

Allows you to customize the default case status that will appear when a case type is created, such as Case Filed and also allows you to override that default for specific case types.

Adding the table entry

Menu | Tables | Generic Validation Tables | Defaults

Code: CASESTATUS
Short description:*
Long description:*
Active:* Yes No

Default case status when adding a case (place in the short description).
Note: You can override the default for any case type by specifying:

xxxx=yyyy
where:
xxxx is the uppercase case type
yyyy is the case status to use for that case type

VOL=APPR

Default	Override default
