

Classification Within Facility

What it does:

Allows you to add options for special classifications, such as Suicide Watch. The classification can be displayed in red on different screens if necessary.

Adding the table entry

Menu | Tables | Generic Validation Tables |

Classification Within Facility Entry details

Code(classification) can be 1-4 characters.

Highlight/Color - If Y, then this field will be highlighted when displayed. It can also be set to any valid HTML color code setting.

Location group - If entered, states this classification is valid only for the location group specified. Location groups are defined in the details of the Location code table.
