

Case status statistics

Report Description:

This report shows the average length of time between two case statuses. You can search a specific case type, Dependency & Neglect cases for example, and choose Filed or Open for the first case status and Closed or Wardship Terminated for the second case status and the report will tell you the average length of days between the two, broken down by race and sex.

Running the Report:

Enter the beginning date, ending date and select the case type, if desired. If you don't select a case type it will report on all case types. Select the starting case status and the ending case status. If you don't put any case type or any case status options, it will report all case types and the length of time for each between every case status.

Where the data comes from:

The report will search all case types specified in the search criteria, and look for the two case status options, and count the days between the two. One of the two case status options had to have a status date in the time period.
