Open cases with no future court events

Report Description:

This report will provide you with a list of cases where there is no future event scheduled. This is a great report to ensure old cases are getting closed and open cases aren't falling through the cracks.

Running the Report:

There are no options for the user to select. You can make multiple reports with specific sections in the report settings to customize this report.

JT Open Cases With No Future Court Events
Enter report criteria and press "Submit"

This report does not require any additional input. Press "Submit" to submit the report for execution.

The Report:

The report will list all cases, according to the report settings, that do not have a future event scheduled.

JT Open cases with no future court events
Allen County

Name		File #	Case	Status	Last hearing
Co	athleen	330125	02D07-0509-JT-000110	9/12/2005 – Case Filed

Du	. Sr.	331078	02D07-0707-JT-000119	7/12/2007 – Case Filed	Termination of Parental Rights on 12/8/2008 at 1:30 PM in Judge Charles F. Pratt's courtroom (Cancelled)

Where the data comes from:

If you have defined the "skipPersonRole" report setting, then the case must have somebody without this role to be included. For example, you may want to skip a role of "Interested Party" or "Responsible Party" in this report.

If you have defined the "skipRequirement" report setting, then the report will skip any case that has an open requirement of this type/code. For example, if the person has an open "DOC Commitment" requirement, you may want to skip the case.

If you have defined the "skipCaseType" report setting, then these case types will not be included. This is a great way to limit the report to only a specific case type. You can skip all other case types.

If you have defined the "skipEventType" report setting, then these types of events won't count as a "future event." For example, an Office Appointment may not be considered a future event if you were only looking for court hearings.

Report Settings:

```
# -- Required settings --
class=equest.app.reports.CasesWithNoEvents
commits=Yes

# -- Optional Report settings --

# person roles to skip.  cases must have somebody without this role to be included.
# skipPersonRole.n=<person role>

# Requirements to skip.  Cases with one of these open requirement types (or type/codes)
# that has a future end date will not be included in the report.
# skipRequirement.n=<requirement type>
# skipRequirement.n=<requirement type>/<requirement code>

# Case types to skip.  Cases with one of these case types will not be included in the report.
# skipCaseType.n=<case type>
skipCaseType.1=JP
skipCaseType.2=DR
skipCaseType.3=JM
skipCaseType.4=RS

# Event types that don't count as a future event (uppercase)
# skipEventType.n=<EVENT TYPE>
