

Judgment Book

Report Description:

This report searches for new Judgments added to the system and put them into the Judgment Book.

Running the Report:

There is no additional input needed.

Create Judgment Book
Enter report criteria and press "Submit"

This report does not require any additional input. Press "Submit" to submit the report for execution.

This should be set up as a scheduled job:

Job name:	JGMTBOOK
Frequency:*	DAY - Daily
Report name:*	JUDGMENTBOOK - Create judgment book
Run date offset:*	0
Run date range:*	D - Single day date range
Run time:	7:00:00 PM

It should run daily at the end of the day so the judgment book and book entry date are the same date. The Requirement Status date which should be the date added, is what causes the Judgment book date.

Requirement type:	CLERK FEES				
Requirement code:	Judgment				
Provider:	-- Select --				
Assigned date:	12/7/2018	Start date:	12/7/2018		
Scheduled end date:		New end date:

Notes:	Judgment for Mediator's Fees for Christopher LaPan 8% Interest				

The Report:

The report does not produce an actual report, it simply updates the Judgment Requirement with the Judgment book, page and book entry date.

Requirement type: CLERK FEES
Requirement code: Judgment
Provider: -- Select --
Assigned date: 10/31/2018 Start date: 10/31/2018
Scheduled end date: New end date:
Status: JUD2 - Reduced to Judgment Status date: 10/31/2018
Assessment frequency: -- Select -- Type: -- Select --
\$0.00
Default payee: Get name
Judgment book: 20181031D07 Page: 1 Book entry date: 10/31/2018

Where the data comes from:

The report searches for requirements with a status that matches the report setting “reducedToJudgment” and that does not have the Judgment book, page and entry date filled in.

Report Settings:

-- Required settings --

```
class=equest.app.reports.CreateJudgmentBook  
jobQ=batch
```
