

Documents to approve- Col Header Scripts

What it does:

Allows you to customize the Judge's Documents to Be Approved screen by allowing the Approve and Reject column headers be used to check/uncheck all boxes in that column or not. If not the Judge must select each order individually.

Adding the table entry

Menu | Tables | Generic Validation Tables | Defaults

Code: DOCTOAPPROVE

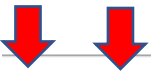

Short description:*

Long description:*

Active:* Yes No

Notes:

Short description controls whether the Approve, Reject column headers can be used to check/uncheck all check-boxes in that column.
