

Event attribute type

What it does:

Allows you to set up attributes for court and/or non-court events. The attribute is a statistic that can be shown on reports. The attribute can be highlighted, limited to a specific court, or limited to a specific event type.

Adding the table entry

Menu | Tables | Generic Validation Tables |

Code: INT

Short description:*

Long description:*

Special (Y/N):

Court (Y/N):

Court Filter:

Type Filter:

Active:* Yes No

- **Code** – Choose a code. It can be 1-4 characters.
- **Short description** – The short description can be up to 15 characters
- **Long description** – The long description is what the users see, it can be up to 50 characters long.
- **Special (Y/N)** – If Y, then this attribute will be highlighted on various screens when displayed.
- **Court (Y/N)** – If Y, this will only show for court events. If N, it will only show for non-court events. If unspecified, will show for all events.
