

FF AGYAPPR

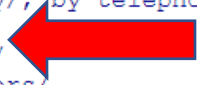

What it does:

Allows you to pull up a list of everyone in a specific agency so you can select them. Functions 00-04 work great in the Comes Now section to list everyone appearing in court. 10-14 allow you to add the selected agency person as a name assigned to the case. 20-24 pull up people from your own agency, division, or unit so you can select them as having appeared, or to put their contact information in a document.
