FF FEE

What it does:

This function lets you use the default fee tables to set up fee amounts for specific fees then put that amount into a document.

Used in template:

Template

```
@v/selcase/

You are ordered to pay $@v/fee/ for a docket fee.
```

Variables

Name	Type	Action	Length	Prompt
FEE	@V/	FF FEE/00	1	x
SELCASE	@V/	FF CMPLNTS/00	1	x

Menu | Tables | Generic Validation Tables | Defaults | FEE/00

Code	Short description	Long description
Add a new entry		
FF FEE/00	160.00	Docket fee

Whatever the amount in the short description of the default table that matches the fee code used in the template is printed in the document.

What the user sees:

The user doesn't see anything, this is automatic.

Output:

```
You are ordered to pay $160.00 for a docket fee.
```
