## What the user sees:

---

The user doesn't see anything, this is automatic.

## Output:

---

```
FF FFITEMTXT/00:
IN THE MATTER OF THE PATERNITY OF:
Elizabeth Ann Las (104428)
    b/n/f State of Indiana

Jessica Jansen (Mother)
Jed Anthony Las (Father)
State of Indiana as Assignee

FF FFITEMTXT/01:
IN THE MATTER OF THE PATERNITY OF:
Elizabeth Ann Las (104428)      )
    b/n/f State of Indiana      )
                                )
Jessica Jansen (Mother)        )
Jed Anthony Las (Father)       )
State of Indiana as Assignee    )
```

### **FF ITEMTEXT/00 – Format case caption - no ')'**

---

Formats the case caption of the first personID/caseID tied to the document. The caption will be output exactly as typed.

### **FF ITEMTEXT/01 – Format case caption - with ')'**

---

Formats the case caption of the first personID/caseID tied to the document. Each line of the caption that's less than 34 characters long will have ')' added as the 34th character.
