

# default variable names for FF Names/80

## What it does:

---

Allows you to define the Petitioner in a case if the Petitioner is missing. This is useful in those cases where the Petitioner is the State of Indiana.

## Adding the table entry

---

Menu | Tables | Generic Validation Tables | Defaults

---

Code: FF NAMES/80

Short description:\*

Long description:\*

Active:\*  Yes  No

Notes:

---

This is used with the template function FF NAMES/80. If for example you have a caption that says Petitioner vs. Respondent, but your case doesn't have a Petitioner because the Petitioner is the State of Indiana, and we never add agency names to the names associated with the case, this will cause the missing Petitioner spot to say

STATE OF INDIANA vs. RESPONDENT NAME

IN RE: THE MATTER OF THE PATERNITY OF: |  
@v/ch/ | |

<span class="fsAllCaps">@v/pet+ / |</span>  
Petitioner, |  
and, |  
<span class="fsAllCaps">@v/res+ / |</span>  
Respondent. |

<u>PET+</u>	@V/	FF NAMES/80
<u>RES+</u>	@V/	FF NAMES/80
