USERN	@V/	FF OPER/10	1	x

What the user sees:

The user doesn't see anything, this is automatic.

Output:

Karlene Thompson
Probation Officer

FF SIGPLUS/00 – Inserts the current users signature

This function is used to insert the current users signature. If a signature is not found, a signature marker is inserted so the user can manually sign the document.

FF SIGPLUS/01 –Inserts the current users signature - no overwrite

This function is used to insert the current users signature as long as the question hasn't already been processed once. If the question has already been processed, it will not overwrite the existing signature. If a signature is not found, a signature marker is inserted so the user can manually sign the document.
