

On file stamp, replace <!--@I\$/CLERK--> with this

What it does:

Allows the act of file stamping a document to date the signature the date of the file stamp and add the Clerk's signature and seal. Contact G&W if you want to set this up.

Adding the table entry

Menu | Tables | Generic Validation Tables | Defaults

Code: FILESTAMPTXT

Short description:*

Long description:*

Active:* Yes No

```
<style>
div.clerksig { position: relative; width: 400px; }
div.clerkstamp { position: absolute; top: 0px; right: 400px; width: 200px; }
</style>
<div class="clerksig">
  
  <div class="clerkstamp">
    
  </div>
</div>
```

You then create a template with the special coding so that when the document is file stamped, the coding is replaced with the signatures and seal.

DATED: <!--@I\$/FILESTAMPDATE--> ||

```
<table class="fs" width="100%">
<tr class="fs">
<td class="fs" width="50%"></TD>
<td class="fs" width="50%"><!--@I$/CLERK--></TD>

<tr class="fs">
<td class="fs" width="50%"></TD>
<td class="fs" width="50%">_____</TD>
</tr>|
<tr class="fs" width="100%">
<td class="fs" width="50%"></TD>
<td class="fs" width="50%">CLERK OF THE PORTER JUVENILE COURT</TD>

<tr class="fs">
<td class="fs" width="50%"></TD>
