The Report:

Family assignment audit		
Name	File Nbr	Error
Am [redacted] Aaron	69956	No family identifier - active cases not checked
Au [redacted]	102006	No family identifier - active cases not checked
Av [redacted] on	93644	No family identifier - active cases not checked
Be [redacted]	95225	No family identifier - active cases not checked
Ca [redacted] on, JR	11848	No family identifier - active cases not checked

Where the data comes from:

This report will search all open cases to find those that are missing the “other identifier” that represents the family ID as defined in the report settings as “familyID.”

You could set up an identifier for family ID and keep track of how many “families” a court is dealing with at any time. A mother may have multiple family IDs if she has children with multiple fathers.

Report Settings:
