

Rule GAW113 – Add User to Case on Incident

Apply when: IncidentOfficers database file

Subtask: I

Standard GAWDBObject subtasks:

'C' - on object creation

'R' - before referential integrity

'i'/'I' - before/after insert

'u'/'U' - before/after update

'd'/'D' - before/after delete

Sequence: 10 (Controls the order in which rules will be applied for a given subtask)

Java class:*

Adds the current Incident Officer as a case assignment.

This should be called AFTER INSERT of a IncidentOfficers database object.

The types of Incident Officers added are determined by the 'RULEPARMS' entry of the 'DEFAULTS' table.

Valid properties are:

AddUserToCaseOnIncident.role.n=<officerRole>

AddUserToCaseOnIncident.role.<caseType>.n=<officerRole>

where officerRole is a role to be added as a case assignment.

caseType limits the assignment to only the specified case type.

where n starts at 1 and is incremented by 1 for each role defined.

The officer role in the Incident is used as the case assignment

role, so the officer role must also be a valid case assignment role.

Rule Setup:

Apply when	Sub-task	Seq	JAVA class
<u>IncidentOfficer</u>	I	10	equest.rules.AddUserToCaseOnIncident

Rule Parms:

AddUserToCaseOnIncident.role.1=ARR

AddUserToCaseOnIncident.role.2=PET

Officer:

OR

Officer role:
