

Rule GAW140 – Update Cover Sheet

Apply when: CaseStatuses database file

Subtask: I

Standard GAWDBObject subtasks:

'C' - on object creation

'R' - before referential integrity

'i'/'I' - before/after insert

'u'/'U' - before/after update

'd'/'D' - before/after delete

Sequence: 15 (Controls the order in which rules will be applied for a given subtask)

Java class:*

Automatically formats and updates the oldest cover sheet entry for a case. The entry is added if it doesn't already exist. Should be applied:

- 1) after insert ('I') and after update ('U') of case statuses
- 2) after insert ('I') of requirement cases and after update ('U') of requirements
- 3) after insert ('A') of events with all event names, and after update ('U') of events
- 4) after completion of a document ('a')
- 5) after insert ('I') and after update ('U') of deadlines

The updates to be performed are determined by the 'RULEPARMS' entry of the 'DEFAULTS' table. Valid properties are:

UpdateCoverSheet.caseType.n=<case type>

UpdateCoverSheet.<case type>.reportRelativeCaseType.n=<case type for relative>

UpdateCoverSheet.<case type>.reportRequirement.n=<type> or <type/code>

UpdateCoverSheet.<case type>.reportEvent.n=<event type> (they must have appeared at event)

UpdateCoverSheet.<case type>.reportStatus.n=<case status> or <status/reason> (anything other than filed, disposed, and/or adjudicated)

UpdateCoverSheet.<case type>.reportDocument.n=<template>

UpdateCoverSheet.<case type>.reportDocument.<template>.associateWith.n=<case type>

UpdateCoverSheet.<case type>.reportDeadlines.n=<agency>

where:

<case type> is the lowercase case type to be automatically update.

<case type for relative> is the lowercase case type of an open case for a relative for the relative to be included in the formatted output.

<event type> is the lowercase type of event for which we want to know a date of.

<case status> is the lowercase case status that we want to know the date of occurrence. Filed, adjudicated, and disposed will automatically be included.

<template> is the lowercase template name of a document we want to know a date of. Templates will only be reported for cases specified in the 'associateWith'.

<agency> is the lowercase responsible agency of the deadline. We will only report deadlines for agencies listed.

n must start at 1 and increment by 1 for each type of entry specified.

Important: Case type should only be referenced once to the right of the '=' across all definitions.

Rule Setup:

Apply when	Sub-task	Seq	JAVA class
CaseStatuses	I	15	equest.rules..UpdateCoverSheet
CaseStatuses	U	15	equest.rules..UpdateCoverSheet
Deadlines	I	15	equest.rules..UpdateCoverSheet
Deadlines	U	15	equest.rules..UpdateCoverSheet
Documents	a	15	equest.rules..UpdateCoverSheet
Events	A	15	equest.rules..UpdateCoverSheet
Events	U	15	equest.rules..UpdateCoverSheet
RequirementCase	I	15	equest.rules..UpdateCoverSheet
Requirements	U	15	equest.rules..UpdateCoverSheet

Rule Parms:

UpdateCoverSheet.caseType.1=jc
UpdateCoverSheet.jc.reportRelativeCaseType.1=jc
UpdateCoverSheet.jc.reportRelativeCaseType.2=jt
UpdateCoverSheet.jc.reportRelativeCaseType.3=jp
UpdateCoverSheet.jc.reportRelativeCaseType.4=pr
UpdateCoverSheet.jc.reportRequirement.1=plac
UpdateCoverSheet.jc.reportRequirement.2=plan
UpdateCoverSheet.jc.reportEvent.1=ini
UpdateCoverSheet.jc.reportEvent.2=dis
UpdateCoverSheet.jc.reportEvent.3=medi
UpdateCoverSheet.jc.reportEvent.4=fac
UpdateCoverSheet.jc.reportEvent.5=phr
UpdateCoverSheet.jc.reportEvent.6=adih
UpdateCoverSheet.jc.reportEvent.7=cin
