

Rule GAW142 – Add Assignment As Visitor

Rules CaseAssignments database file

Apply when: CaseAssignments database file

Subtask: D

Standard GAWDBObject subtasks:

'C' - on object creation

'R' - before referential integrity

'i'/'I' - before/after insert

'u'/'U' - before/after update

'd'/'D' - before/after delete

Sequence: 15 (Controls the order in which rules will be applied for a given subtask)

Java class:*

Adds an assigned person as an approved visitor whenever a case assignment is added and there's an open stay or whenever a stay is added and there's an open assignment. Whenever either the stay or assignment ends, the person is removed from the visitor list (unless the stay is still open and the person is assigned to another case). This should be called AFTER INSERT, AFTER UPDATE, and AFTER DELETE of a Facility Stay database object and a Case Assignment database object.

The assigned roles to be automatically added are determined by the settings in the 'RULEPARMS' entry of the 'DEFAULTS' table. Valid properties are:

AddAssignmentAsVisitor.<assigned role>=<visitor type>

Assigned role is the role that the case assignment must have to be included (lowercase)
Visitor type is the visitor type to use for the person

Rule Setup:

Apply when	Sub-task	Seq	JAVA class
CaseAssignments	D	15	equest.rules.AddAssignmentAsVisitor
CaseAssignments	I	15	equest.rules.AddAssignmentAsVisitor
CaseAssignments	U	15	equest.rules.AddAssignmentAsVisitor
FacilityStays	D	15	equest.rules.AddAssignmentAsVisitor
FacilityStays	I	15	equest.rules.AddAssignmentAsVisitor
FacilityStays	U	15	equest.rules.AddAssignmentAsVisitor

Rule Parms:

AddAssignmentAsVisitor.<assigned role>=<visitor type>

AddAssignmentAsVisitor.co=co
AddAssignmentAsVisitor.dpwa=oth
AddAssignmentAsVisitor.dpwc=oth
AddAssignmentAsVisitor.plfa=oth
AddAssignmentAsVisitor.plr=oth
AddAssignmentAsVisitor.atty=aty
AddAssignmentAsVisitor.prob=po
AddAssignmentAsVisitor.pd=aty
AddAssignmentAsVisitor.pd2=aty
