

# Label settings

## What it does:

---

Provides you with the information to configure labels. Quest has an interface with a zebra label printer to print labels.

## Adding the table entry

---

Menu | Tables | Generic Validation Tables | Defaults

---

Code: LABELS  
Short description:\* LabelSettings  
Long description:\* Label settings  
Active:\*  Yes  No  
Notes:

```
# Activate screen print label buttons
#
# addressDetail=<y/n>
# caseDetail=<y/n>
caseDetail=n
```

```
## Documentation for labels
```

```
# Any number of fields and values can be made available
# to the label with fieldName.n and fieldValue.n
#
```

```
# Fields available from the default address loader:
# addressLine1
# addressLine2
# addressLine3
```

```
# Fields available from the default case loader:
#
# caseType
# caseTypeLongDesc
# cause
# causeBar
# courtCode
```

# courtLongDesc  
# courtOfficialHighestCode  
# courtOfficialHighestLongDesc  
# openDate = first case status of first case name  
# fileDate = file date of lead charge  
# leadCharge  
# caseNameLFM  
# caseNameFML  
# caseNameFileNbr  
#  
# Optional parameters and fields:  
#  
# case.names.role.n=<person role>  
# case.names.showAll=<y/n>  
#  
# If case.names.role.n=<person role> or case.names.showALL=y  
# then the following fields are available:  
# caseNameRole.n  
# caseNameLFM.n  
# caseNameFML.n  
# caseNameFileNbr.n  
#  
# If case.otherID.n=<otherID type> specified  
# then the following fields are available:  
# otherID.n  
#  
# If case.openCases=<y/n> specified  
# then the following fields are available:  
# openCause.n
