

# Law Enforcement Report

## Report Description:

This report will provide a list of information on those people who either match a specific requirement, such as all the kids on probation or home detention, and/or people who have a warrant. This can be separated by city. This is a great report to send to the county sheriff and/or the city police departments to let them know about the people in their area.

## Running the Report:

This report does not require any additional input.

**Law Enforcement Report By City**  
Enter report criteria and press "Submit"

This report does not require any additional input. Press "Submit" to submit the report for execution.

## The Report:

If you program this report to report by city, you will get a report for each city. You will also receive a .csv spreadsheet.

Requirements: 92JC1-2018-ID-3; DCS Probation; Started: 10/5/2018							

## Where the data comes from:

---

This report will search for the specified Case types to include “[caseTypes](#)” or all case types if none is defined. It will then look for the specified requirement type or requirement type/code to include “[requirementType](#)” and with Person attribute types to include “[attributeType](#).” You can also specify that the report use Case Attributes “[useCaseAttributes](#).”

You can sort the report by city “[sortByCity](#)” and/or separate the report by city “[separateByCity](#)” making it easy to send the report to your city police departments. If you separate by city you will receive a report for each city where a matching person resides.

## Report Settings:

---

```
# -- Required settings --
class=equest.app.reports.LawEnforcement
jobQ=batch

# -- Optional Report settings --
#report.notify.userid.1=xxxxxx
# <report.notify.userid.n.method> For any specified userID to receive the output, this option allows the output
to be emailed to the user.
#report.notify.userid.1.method=email
# When emailing, the userID can be the email address or an eQuest userID. If a userID, then eQuest will search
in eQuest for the email address.
