Location Counts Over a Period

Report Description:

This report will provide the total number of males and females in specified locations on every day during the time period. It will be broken down by location, with a total of all locations at the end.

Running the Report:

Enter the beginning and ending date.

Location Counts Over A Period
Enter report criteria and press "Submit"

Start date:* 12/1/2018

End date:* 12/31/2018

The Report:

Location Counts Over a Period

Bashor Children's Home
12/1/2018 thru 12/31/2018

Date	Male	Male Percent	Female	Female Percent	Total
12/1/2018	8	80.00	2	20.00	10
12/2/2018	8	80.00	2	20.00	10
12/3/2018	8	80.00	2	20.00	10
12/4/2018	8	80.00	2	20.00	10
12/5/2018	8	80.00	2	20.00	10
12/6/2018	8	80.00	2	20.00	10

Where the data comes from:

The report is looking for open facility stay locations as specified in the report settings "location" during the time period. If no location is specified, all locations will be reported. It will count the number of males in each location and the number of females in that location, then report the percentage and totals.

Report Settings:

```
# -- Required settings --
class=equest.app.reports.LocationCounts
jobQ=batch

# List of locations to include in this report (uppercase)
# If none specified, we will use all from the LocationCode table
# location.1=A
# location.2=B

# Cutoff time to determine if a person counts for that day
cutoff=8:00 pm
