

Allow notice to be delivered by email

What it does:

Allows the CreateBatchNotices report (print pending notices) to send the copies of documents by email.

Adding the table entry

Menu | Tables | Generic Validation Tables | Defaults

Code: NOTICETOEMAIL

Short description:*

Long description:*

Active:* Yes No

Notes:

```
# Set short description to Y to allow notice to be delivered via email if we have a person's email address. Otherwise, notice will be printed to be mailed.

# Service type that means 'by email'
emailServiceType=EML

# Service disposition that means 'delivered'
emailServiceDisposition=SENT

# Link to YOUR quest system, for example: https://www.gawquest.com/equest
# emailServiceLink=https://www.gawquest.com/equest
# emailServiceLink=https://tn.gawquest.com/equest
```

It is important that you set up your **Service Type** and **Service Disposition** tables to properly reflect the type of service.

Notices

Caroline Ingalls (Provided by Email - Sent successfully)

Notice sent at 8/5/2020 10:33:15 AM to kt.gkmsi@gmail.com.

Charles Ingalls (Provided by US Mail - Printed)

Notice printed at 8/5/2020 10:33:15 AM to 356 W Main St, Gallatin, TN 37066.

If you set up the "Link to your Quest System" option, the order won't be sent as an attachment, but as a link. They click on the link, which brings up the order. They can print or save the order. It will also log the date and time they viewed the document.
