

# Only allow official courts for court assignment?

## What it does:

---

Allows you to specify if all courts can be an assigned/home court or if only “official” courts can be assigned.

## Adding the table entry

Code: OFFICIALCRTONLY

Short description:\*

Long description:\*

Active:\*  Yes  No

Notes:

Controls whether all courts in the COURTS table should be displayed for selection when assigning cases to courts. If 'Y' is specified, only entries in the court table that don't have an official court specified or entries that are referred to as the official court from other court entries are displayed. If 'N' is specified, all entries are displayed.

When you set up the Table: Courts, you may have added magistrates as a court so they could have their own calendars, but then you may have added one official court, like D06, and all the other courts have D06 as their official court. Only official courts have an Order Book.
