

Status for OtherIDs

What it does:

Allows you to add options for the status of the other ID numbers that may be associated with a person. For example, if you've added the driver's license number, you may want to select the status of that license.

Adding the table entry

Menu | Tables | Generic Validation Tables | OtherIDStatus

Code: DLNS

Short description:* DLN Suspended

Long description:* Driver's License Suspended

Active:* Yes No

- **Code** – Choose a code. It can be 1-4 characters.
- **Short description** – The short description can be up to 15 characters
- **Long description** – The long description is what the users see, it can be up to 50 characters long.

Click the **Update** button to save your work.
