Quash warrants

Report Description:

This will produce a report that shows the open warrants that have exceeded the number of days you've indicated a warrant may remain active, and it will warn you of warrants that are getting close to that date. For those that have exceeded the number of days, this report will inactive them. If you have a warrant type that expires after 6 months for example, this is a very handy report to keep on top of those warrants about to expire. You may want to make it a scheduled job.

Inactive reason: EXP - Expired ▾   Date: 10/1/2018

Where the data comes from:

- Warrants   Top
Mary Ingalls - Case: 02D07-1810-JD-000003 - Body Attachment - Juvenile issued 10/1/2017; Active 365 days

- Warrants   Top
Laura Ingalls - Case: 02D07-1810-JD-000004 - Body Attachment - Juvenile issued 6/1/2018; Active 122 days

The report will look at all open warrants to determine if any meet the criteria in the report settings. It will look for the "Number of days a warrant can remain active before being automatically quashed" to see if any open warrants have exceeded that number of days and if so, will add the inactive reason or "quashType" to the warrant.

The report will also look for the open warrants that exceed the "Number of days a warrant can remain active before appearing on the report warning that it will be quashed soon" and report those cases on the report.
