

Sort level for statutes

What it does:

Allows you to sort statutes by a level. For example, the numerous felony drug statutes can be given the same sort level. It also lets you group the levels for the Business Intelligence Software.

Adding the table entry

Menu | Tables | Generic Validation Tables | SortLevel

Code: 3

Short description:* Felony Drug

Long description:* Felony Drug

BI Grouping: Felony

Active:* Yes No

- **Code** – Choose a code. It can be 0-999 numeric characters.
- **Short description** – The short description can be up to 15 characters
- **Long description** – The long description is what the users see, it can be up to 50 characters long.
- **BI Grouping** - Groups multiple sort levels together. Example: Felony Weapons, Felony Property, Felony Person could all have a grouping of Felony.

Click the **Update** button to save your work.
