## Default Codes Used Throughout The Application

### Entry details

---

Code: REQSTATUTES

Short description:\*

Long description:\*

Active:\*  Yes  No

Notes:

```
# Should be *yes if the requirements can be assigned to statutes (instead of just cases). If this is anything but *yes, statutes won't be listed on the edit requirement and edit requirement case screens.
```

```
# If '*yes' is specified, you can set a flag here controlling whether requirements will accept cases only (C), statutes only (S) or both (B - default).
```

```
# You can override this setting for specific requirements by copying the below line to any specific requirement code.
```

```
allow=S
```
