Case Statuses Over A Date Range

Menu | Miscellaneous | Local | Local Options | Custom Queries Menu

Report Description:

This report will provide a list of cases that had a specified case status added during a date range. It will list the case names, current case status, date of the specified case status, and case number.

Running the Report:

Select the case status you wish to view.
Select the case status reason if desired.
Select the date range for when this case status was entered.
Select the specific case type or leave empty for all case types.
Select the specific court if desired or leave empty for all courts.

The Report:

The report will list every case that had a case status that matches the report criteria with a status date during the report date range. It will list the current case status in the status column along with the date of the matching case status. The **Cause number** is a link to that Case Detail screen.
