Compare 2 Security Groups
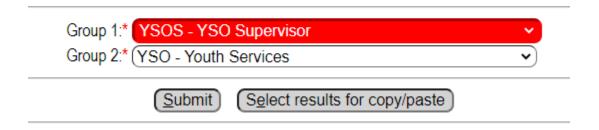

Menu | Miscellaneous | Local | Local Options | Custom Queries Menu

Report Description:

This query will compare 2 security groups and let you know what the differences are between the two. This is extremely helpful if you ever ask "why do we have so many security groups?"

Running the Report:

Select your first security group.
Select your second security group.

Click the **Submit** button to see the results.

If there is a + in the column it means group 1 can do this and group 2 cannot.
If there is a – in the column it means group 2 can do this and group 1 cannot.
The type column is Authority Type table.

Compare 2 Security Groups
Enter selection criteria and press submit.

Group 1:* [YSOS - YSO Supervisor ▾]
Group 2:* [YSO - Youth Services ▾]

[Submit] [Select results for copy/paste]

Changes to make to Group 2 to make like Group 1
