

Map open warrants

Report Description:

This report will produce a map indicating where those people with an open warrant live. You can hover over the dots on the map to see who lives there along with links to their person detail, history, contact, and events.

Running the Report:

From date – if you don't enter a date, all open warrants will be listed, otherwise, only those issued since the date you entered will be listed.

Warrant type – Select the type of warrant you wish to view. If you don't select a warrant type, all warrants will be included.

Map Open Warrants Enter report criteria and press "Submit"

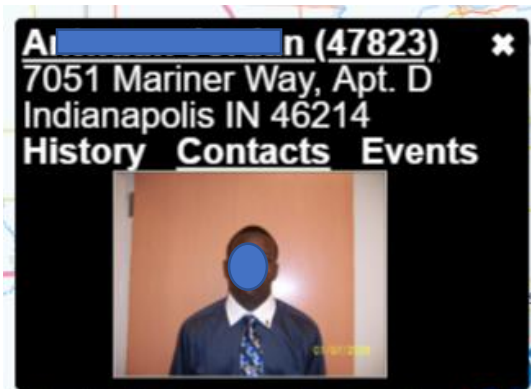

From date: 

Warrant type:

NOTE: If you don't pass in a date, all open warrants will be listed. Otherwise, only those issued since the date you entered will be listed. If you pass in a type, only warrants of that type will be included.

The Report:

The report produces a map of where everyone with a warrant lives.

Where the data comes from:

The report is looking for all open warrants, then narrowing it to match the criteria you entered. It is then displaying a map with basic information about the person for whom there is an open warrant. We're interested in the first address for the person. The site can determine which address is best based upon the sort priority you've assigned to the address types. If 2 or people have the exact same address, we only show 1 pin or blue balloon indicating a person lives here. That's not Quest, that's the way google maps works. It is unknown who's pin that will be.

Report Settings:

There is no special set up required for this report.
