

Substance Abuse Counts- With Totals By Age

Menu | Miscellaneous | Local | Local Options | Custom Queries Menu

Report Description:

This query will list all substance reports of the selected type that were added during the report range for the specified case type. It will list the date of the substance report, type, substances found, name, age, sex, and current school. This query will also provide statistics for positive results based on age and sex.

Running the Report:

Select the substance report type you wish to view.
 Select the date range.
 Select the case type.
